Figure 1

Proportion uninsured across the age span: Hypothetical distribution illustrating advantage of finer detail in synthetic estimation
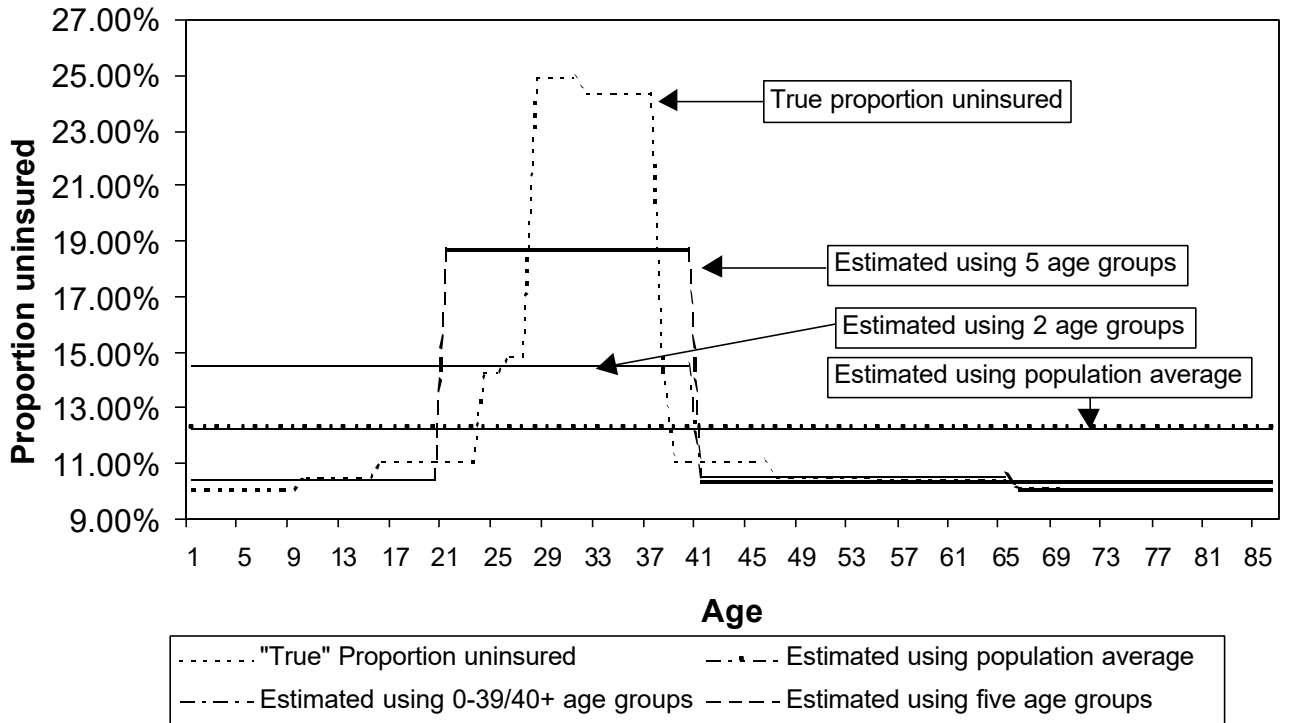

Figure 2

Proportion uninsured by age: Four race groups

Graphs by Four race groups
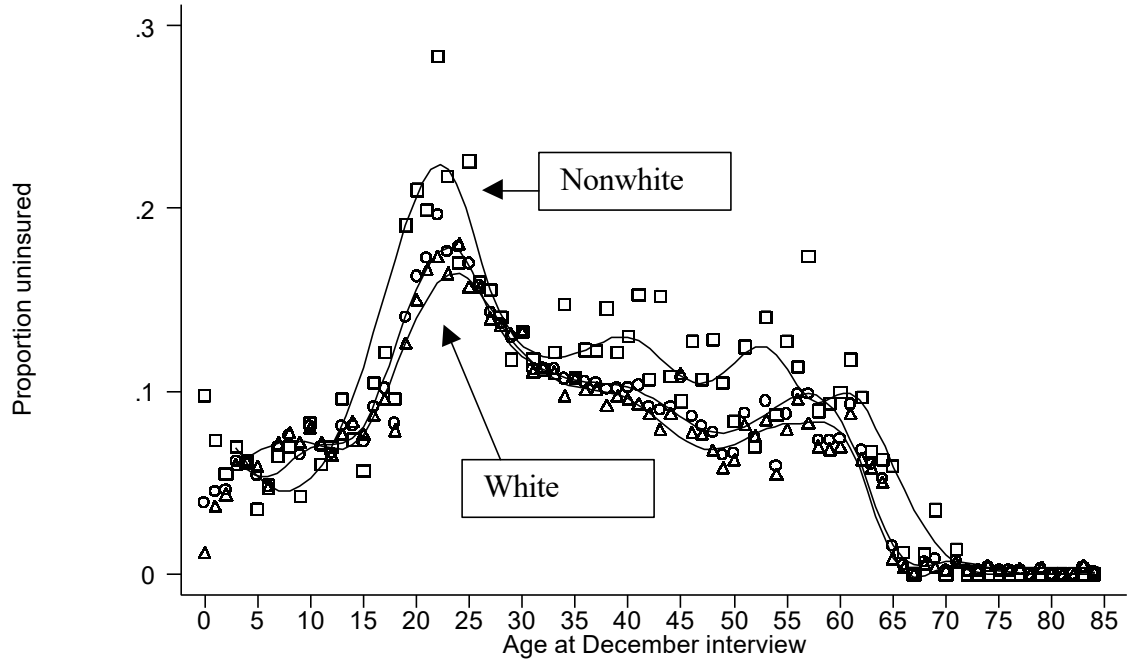

Figure 3

Proportion uninsured by age: Population, White and Nonwhite

Figure 4

Proportion uninsured by age: Population, Hispanic and NonHispanic

Figure 5

Proportion uninsured by age: Males versus Females

Figure 6

Proportion uninsured by age: simple age model and categorical model

Figure 7: Predicted Values by Age, Race, Hispanicity and Sex, and obtained proportions uninsured for each group, Model 1

Proportion uninsured by age: Eight groups and predicted values

Graphs by Wh/Non by Hisp/Non by M/F

Figure 8: Predicted Values by Age, Race, Hispanicity and Sex, and obtained proportions uninsured for each group, Model 2

Proportion uninsured by age: Eight groups and predicted values

Graphs by Wh/Non by Hisp/Non by M/F
